

Residential Steel Roofing

A LIFETIME OF BEAUTY AND VALUE, ABOVE ALL

MADE IN CANADA • FABRIQUÉ AU CANADA

Easier to do Business with...
AGWAY METALS INC.

...pour vous faciliter les Affaires

Since 1979, Agway Metals has been a leading manufacturer of premium quality steel building products. Initially founded to serve Ontario's agricultural market, Agway's reputation for progressive product innovation and customer service excellence have since expanded our industry leadership into the residential roofing market, as well.

From the traditional beauty of conventional stylings, to the sleek, modern lines of contemporary designs, Agway's broad range of residential roof solutions integrates the outstanding durability and protection of steel with stunning architectural aesthetics to complement any home or cottage and its immediate surroundings.

An Agway steel roof on your home or cottage adds beauty and value that will last a lifetime. Our longstanding reputation for outstanding, hassle-free customer service means you'll find us easy to do business with.

AVAILABLE COLOURS

Colour is elemental in enabling us to express our individuality. From the way we dress to the surroundings we choose for our everyday lives, our colour preferences speak volumes on how we wish to be perceived. Whether that's a statement of quiet conservatism, bold presentation, or simple earthiness, it's nice to know Agway metal roofing products offer you a wide range of colour options to let you be who you are, while complementing the aesthetics of your home or cottage and its surroundings.

So, go ahead, chose the Agway colour that lets you be you.

SPRINGHOUSE SHINGLES

Springhouse Shingles provide a unique and spectacular looking roof with traditional appeal. Engineered with a textured finish to look like traditional shingles, Springhouse Shingles offer a rugged and long lifecycle that is maintenance free. Ideal for retrofitting historical homes, this product features concealed fasteners with no exposed cut edges, which keeps the traditional look consistent.

*AVAILABLE RIB HEIGHTS: 1", 1 1/2" & 2"

AR STANDING SEAM

Agway's AR Standing Seam Profiles offer a raised rigid standing seam at three different depths and an assortment of widths to achieve a variety of contemporary, architecturally pleasing designs. Panels are installed using hidden clips and fasteners that produce a roof with clean, crisp lines. The side seams are mechanically seamed at either 90° or 180° for even more design flexibility.

*AVAILABLE RIB HEIGHTS: 1" & 1 1/2"

NAIL STRIP / SNAP LOCK

One of Agway's most popular profiles, NS is also one of our most economical. Nail Strip installs quickly and offers clean, contemporary lines with no exposed fasteners. To complete your home's overall curbside appeal, optional stiffening flutes and knee caps are also available. Agway's wide choice of colour options allows for virtual matching of any existing home or cottage.

Snap-Lock is a visually stunning board and batten roofing solution designed to deliver a long-lasting performance. For a clean appearance, with no exposed fasteners, hidden clips, and knee caps, SL is an ideal choice for homes and cottages. Its unique, snap-in-place design means a new roof or retrofit can be done quickly and easily. A wide array of colours is available.

OPTIMUM RIB

A very popular profile for agricultural roof or wall applications, our economical, easy-to-install, Optimum Rib lightweight panels add a professionally finished look to the exterior of any structure. For convenience and versatility, these weather resistant panels can be installed vertically or horizontally. Available in a wide range of colours, Agway's Optimum Rib profile, combined with available trims, vents, fasteners and other accessories provides a complete cladding solution for any project.

CENTURY RIB

A more traditional roofing option, our Century Rib system is an exposed fastener profile that allows for quick and easy installation. This product's full range of colours and wide range of accessories offer rustic aesthetics, making it ideal for cottages and residences.
